Employment History

2026 – · · · · **Assistant Professor** University of Crete, Department of Economics
2020 – 2026 **Postdoctoral Research Fellow** Technical University of Munich, School of Management
2018 – 2020 **Research Fellow** University of Nottingham, School of Economics

Research Interests

I am an economist specializing in behavioural and experimental economics. My research focuses on decisions under risk and uncertainty in individual and social contexts, with applications to high-stakes domains such as medical decision making. Central to this line of work is the *description–experience* framework: whether probabilities are described up front or learned through experience changes the choices people make, even when the odds are identical. My work has helped bring this framework, first developed in psychology, into economics. I am also interested in methodological challenges of preference elicitation, incentive design and model estimation, with the aim of building more accurate and more predictive models of economic behaviour. I pursue these questions through laboratory, online and field experiments.

Education

2014 – 2019 **PhD Economics** University of Nottingham, Nottingham.
Thesis: *The description-experience gap in individual and social decisions under risk and uncertainty.*
Supervisors: Prof. Robin Cubitt & Prof. Chris Starmer.
2012 – 2013 **MSc Economics** University of Amsterdam, Amsterdam.
2004 – 2009 **BSc Business Administration** University of Piraeus, Athens.
